MIBRASA®

HIBACHI MH 150

FEATURES

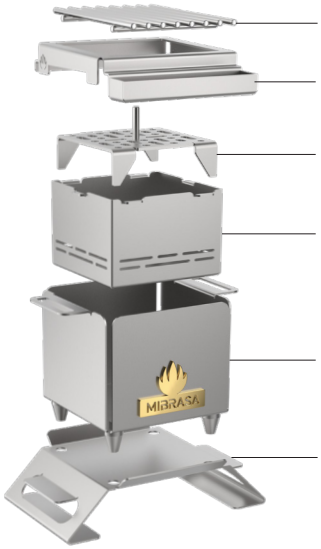

The Hibachi Mibrasa is a high-quality portable mini grill designed to bring the essence of charcoal cooking to any venue, from compact kitchens, dining rooms, terraces, or private events.

With an elegant, compact, and functional design, it is manufactured from high-resistance steel using the same expertise and standards as all Mibrasa grills.

Designed with an integrated sloped grill and grease collector to channel grease away from the fire and keeping flare-ups under control for a cleaner, more controlled cooking process.

Fueled by charcoal, it allows you to cook all types of food, from meat and fish to vegetables, delivering authentic charcoal- grilled flavor in any setting.
