Mibrasa oven with heated holding drawers and heating rack

## FEATURES

OUR CHARCOAL OVENS WITH MIBRASA® **hot** HEATED HOLDING DRAWERS

The Mibrasa® oven is a closed grill designed and engineered in our workshops. Made from the best quality steel by expert hands, our grills are designed to satisfy even the most demanding chefs.

The technical specifications allow the user to accurately control the air flow through the grill, changing the intensity of the embers. This is an extremely efficient way of cooking and cuts down the amount of charcoal needed.

With the HOT series take full control by optimizing the residual-heat from the Mibrasa® oven to hold ingredients in three temperature zones on the unit. The seamless lineal design makes the Mibrasa® HOT the most comprehensive charcoal oven station for any chef that prioritizes an effective and cost-efficient kitchen.
