

DOUBLE 160

Mibrasa® Parrilla with two grills

FEATURES

Precision and strength is key to the PARRILLA MIBRASA®. Effortlessly regulate the height of your grill surface thanks to the carefully engineered double chain system coupled with the crank wheel and gearbox, keeping maintenance down to a minimum.

ERGONOMICALLY DESIGNED WITH MAXIMUM QUALITY AND SECURITY

With a sloping grill, the grease runs down the weld-free grill bars to prevent grease build-up. Grease drips down to the collector with an easy to remove mechanism ready to clean.

The base is lined with refractory bricks to ensure maximum heat efficiency and resistance to pure fire. And the built-in cooling system in outer case guarantees a maximum level of security.

Built using quality steels providing strength and durability; ergonomically designed for practicality and ease of use, each feature plays a crucial part in delivering the ultimate grilling machine for every chef.
